

Bio

Dr Roberto F. Aguilera is an Energy Economist with Curtin University, Australia, and a consultant with Servipetrol Ltd, Canada. He was a Society of Petroleum Engineers (SPE) Distinguished Lecturer in 2018-2019, a program that took him to 30 cities worldwide, and is currently a member of the SPE Asia Pacific Regional Technical Advisory Committee. From 2013-2017, he was an analyst with the OPEC Secretariat, Vienna, where he was co-author of their annual World Oil Outlook. He holds PhD and master degrees from Colorado School of Mines, United States, and a bachelor degree from University of Calgary, Canada. He has participated in numerous energy studies, including with the UN Expert Group on Resource Management and the World Petroleum Council. His publication record comprises *The Price of Oil*, a 2015 book published by Cambridge University Press in English and Chinese.
